About Us

About FairVote

info@fairvote.org

FairVote is a nonpartisan champion of electoral reforms that give voters greater choice, a stronger voice, and a representative democracy that works for all Americans.

FairVote has a proven record since 1992 as a trailblazer that advances and wins electoral reforms at the local, state, and national level through strategic research, communications and collaboration. Today it is the driving force behind advancing ranked choice voting and fair representation in multi-winner legislative districts that will open up our elections to better choices, fairer representation and more civil campaigns.

About My Work

VotingSite@gmail.com

In 1990, John R. Chamberlin, and Samuel Merrill III each gave me permission to use their sim statistical research results to advance a hybrid Condorcet-RCV rule. In the 1990s, I created *PoliticalSim*[™] and *SimElection*[™]. They compared 30 single- and multi-winner rules from around the world and were used in a few universities. Pages 48-56 show maps from these simulation games. My sim research led to *Democracy Evolves*¹¹ in 1997. Then I helped FairVote as a webmaster and librarian. For 10 years I cheered Twin Oaks Community for stretching the uses of Fair Share Voting. (pages 24 and 44) This booklet summarizes *Accurate Democracy.com*.¹²

My goals are better group-decision results (page 61), through systemic changes (e.g. pages 34, 58), through better tools between people (e.g. pages 24, 27, 33, 35).
